ABOUT US

The Select Group excels in connecting great companies with topnotch talent. We provide a variety of technical services, while helping our consultants find the career of their dreams. We're in the business of impacting lives, one positive experience at a time.

ASSOCIATE ACCOUNT MANAGER ROLE

The Account Manager role establishes, develops, and maintains business relationships with leaders and executives within the IT & Engineering space, as well as key stakeholders within a variety of client accounts. Key attributes that will contribute to success in the role include: the ability to easily build rapport with a wide variety of people, a confident and persistent manner, as well as knack for recognizing customer service opportunities.

- Business and territory development, including generating sales leads and cold-calling prospective clients.
- Lead in-person meetings to develop understanding of client needs and share details of TSG's core services.
- Develop business relationships within client accounts through regular meetings, phone calls, and after-hours events.
- Maintain understanding of business initiatives within accounts in order to proactively service needs.
- Serve as an expert in the market, providing guidance to clients regarding market trends, hiring, and skill-based needs.
- Partner with the Delivery Team to identify technical resources.
- Negotiate contract terms and agreements for IT services.
- Mentor, develop, and train new Associate Account Managers as they prepare for promotion to account management.
