

WOMEN IN BUSINESS MAKE YOUR MARK

ABOUT THE SELECT GROUP

The Select Group (TSG) is a technical services firm offering managed solutions and project-based resources. Our company purpose is to impact lives, one positive experience at a time. Learn more by visiting selectgroup.com.

INTRODUCTION

TSG is proud to celebrate the women that define the strength of our company and the world. We are committed to developing employees throughout their career with our **Women in Business** initiative, a program launched in 2018 that focuses on enabling and equipping women at TSG to envision and implement a path to long-term personal and professional success. **Watch the video** ►

PROGRAM OVERVIEW

TSG Women in Business is an application-based program open to all female employees at TSG, regardless of tenure. Over the course of nine months, participants engage in:

- Action Learning Projects focused on developing executive presence, practicing presentation and research techniques, and developing abilities to think and lead across the business
- One-on-one and small group coaching with an external Leadership Development coach
- Building camaraderie and teamwork through roundtable book discussions
- Developing relationships with other leaders within the organization
- Opportunities for networking with Keynote Speakers outside the organization

GET INVOLVED

Everyone has something to give back. We welcome you to partner with us in our commitment to employee development. Help us influence women in TSG's network by sharing knowledge as a keynote speaker or as a career/personal development coach. We also welcome women in your network to use our program as a platform to share their personal business experience and current endeavors, regardless of industry.
